

### Canabas Dining Table

An oval top Louis XVI style dining table with custom brass molding mortised into the top edge, the apron has been recessed back to allow for maximum chair clearance. The tapering square form legs have fluted corners and faces and are mounted with custom cast collars and sabots from Victoria & Son's in-house brass collection. This table can be made to expand with the addition of leaves or in remain in one piece. The overall size of the table determines the number of legs. The model is shown here executed in mahogany with polished brass mounts.

Table is made to order, custom version available upon request.
